PROFILE

A motivated and detail-oriented Year 3 (Semester 1) student at ACLEDA University majoring in Computer Science and Engineering. Passionate about Web Development and UI/UX Design, with solid skills in problem-solving, database design, and building responsive web interfaces. Always eager to apply both academic and technical knowledge to real projects, learn new technologies, and contribute effectively to a development team.

WORK EXPERIENCE

E-commerce Web Application with Admin Dashboard (Vue.js + Django REST)

ACLEDA University of Business | 2023 – 2025

- Built a full e-commerce web application with product catalog, cart, checkout, and order tracking, plus a separate admin dashboard for managing products, stock, orders, and users.
- Developed the frontend using Vue.js (Composition API) and Tailwind CSS, with reusable components for product cards, filters, modals, and tables.
- Implemented secure APIs using Django REST Framework, including authentication (JWT), role-based permissions (admin vs customer), and endpoints for products, orders, payments, and reports.
- Designed PostgreSQL database schemas with relations between users, products, categories, stock, orders, and payments to keep data consistent and easy to query.
- Integrated Axios with Vue for CRUD operations in the admin dashboard: admins can create/update products, adjust stock, confirm orders, and view sales analytics in real time.
- Added responsive layout and mobile-first UI so both the shop and admin dashboard work smoothly on desktop, tablet, and phone.

EDUCATION

ACLEDA University of Business Bachelor of Computer Science and Engineering	2023 - 2027
Juang Jing Vocational High School (Taiwan) High School of Electronic Robotics	2023 - 2024
Bat Doeng High School High School Diploma	2020 - 2023
Bat Doeng Secondary School Lower Secondary Certificate	2017 - 2020
Trapeang Thmor Primary School Primary Education	2010 - 2017

Hiring Committee

General Department of Customs and Excise of Cambodia

Phnom Penh, Cambodia

Dear Hiring Committee,

I am writing to express my interest in the Web Application (Front-End Developer) internship position recently announced by the General Department of Customs and Excise of Cambodia. I am currently a Year 3 (Semester 1) student at ACLEDA University of Business, pursuing a Bachelor of Computer Science and Engineering. My academic progress, combined with practical project experience, has equipped me with the technical skills and passion needed to contribute effectively to your digital initiatives.

Recently, I developed a complete E-commerce Web Application with an Admin Dashboard using Vue.js and Django REST Framework, which strengthened my skills in front-end development, API design, and UI/UX implementation. The project includes product catalog management, cart and checkout processes, order and stock management, user roles, and a responsive admin dashboard for analytics and system control. Through this project, I gained strong experience in component-based UI development, API integration, responsive design, and PostgreSQL database structuring.

In addition, I worked extensively with Vue.js (Composition API), Tailwind CSS, Git, and REST APIs, which aligns directly with the key requirements outlined in your internship announcement. I also have hands-on experience collaborating with backend services, writing developer/user documentation, and applying version control effectively in team environments.

I am highly motivated, eager to learn, and always committed to improving my technical abilities. I believe that joining your department would offer a valuable opportunity for professional growth while allowing me to contribute meaningfully to ongoing web development projects.

Thank you for considering my application. I would appreciate the opportunity to discuss how my skills, experience, and enthusiasm can support the goals of the General Department of Customs and Excise.

Respectfully,

Moeng Kimheang

Recommendation Letter

Phnom Penh, 13 November, 2025

To Whom It May Concern:

This is to certify that **Mr. Moeng Kimheang**, born on **21 October 2006**, is currently a **Third Year** student in Semester I of the academic year 2025-2026 for the **Bachelor of Computer Science and Engineering** program conducted by the **Faculty of Science and Technology** at **ACLEDA UNIVERSITY OF BUSINESS (AUB)**.

AUB, an ACLEDA Bank Plc. subsidiary, was officially recognized by the Royal Government of Cambodia through sub decree No. 27 Or-Nor-Kro-Bor-Kor dated February 12, 2024 on Transformation ACLEDA Institute of Business to be **ACLEDA UNIVERSITY OF BUSINESS**. AUB has been formerly and originally known as ACLEDA Institute of Business (AIB) and ACLEDA Training Center (ATC), respectively.

In continuing its sustainable mission, AUB offers higher education opportunities to local and international learners through the following established faculties and academic programs:

- Faculty of Finance and Accounting
- Faculty of Law and Economics
- Faculty of Business
- Faculty of Science and Technology
- Faculty of Art, Humanities and Foreign Languages

Associate's Degree:

- Accounting
- English
- Export-import Management
- Finance and Banking
- Insurance
- Logistics
- Marketing

Master's Degree:

- Finance
- Finance and Banking
- Management

Bachelor's Degree:

- Accounting
- Business and Enterprise Management
- Business Economics
- Business IT
- Computer Science and Engineering
- English for Business Communication
- English for Translation and Interpreting

Bachelor's Degree (cont.)

- Finance and Banking
- Financial Technology
- International Businesses
- Law
- Marketing
- Risk Management and Insurance
- Supply Chain Management and Logistics
- Teaching English as a Foreign Language

In addition to academic programs, AUB also provides professional training services for the general public and participants from other organizations, which include ACLEDA Bank staff members. For additional information, please contact us at the address, phone, or email listed below.

Respectfully,

Ms. Buntay Sovanny
